WASHINGTON, March 10th .- The State and Navy Department officials still remain in profound ignorance respecting the reported sinking of the Nipsic, and they continue to confidently express the belief that the story is simply a sensational invention. Surprise is expressed that, in the absence of any confirmatory evidence, the San Francisco newspapers should have made such positive statements as were telegraphed East from the coast last night. TOURISTS BUTCHERED. Yellowstone Guide Suspected of Slaying Five Persons. CHEYENNE, March 10th .- Five French

urists, three men and two women, are re

orted to have been murdered in Yellowstone Park. The guide is authority for the tatement that the deed was committed by indians, while others think the perpetrators were organized bandits. The story comes from Canyon City, on the eastern edge of Yellowstone Park, and the scene of the tragedy is far in the in-terior. Guide Hank Ferry, it is said, escaped with his life and told the details in the mining town of Canyon. According to the information given the miners, the tourists consisted of M. Le Claire and wife, J. Vincent and wife, and Paul Gerot. They came from San Francisco and had plenty of

money, and were desirous of seeing the park in winter. In Rattlesnake canyon they were attacked at sunrise by a party of horsemen. Ferry was nearly brained with the butt-end of a gun, and shot in the leg. When he recovered consciousness he found that his employers had been shot in their sleep. The wo women had been scalped, and everyhing of value in the outfit taken.

Ferry, half-crazed with excitement and ever, made his way to the mining camp. where he told his story. He thought the murderers were Indians, but the miners believe they must have been outlaws, who had probably followed the tourists a long distance watching an opportunity such as was offered in the canyon. The miners proposed to go after the murderers, and then Terry diappeared. At first it was supposed he had wandered off

while temporarily insane, but his continued absence has led to the suspicion that he knows more about the massacre than he has told. No attempt will be made to reach the scene for some weeks yet. The tourists' mules, which were branded, may possibly

prove a clue to the murderers. KERN COUNTY.

A meeting was held yesterday, Sunday, afternoon, by saloon men to raise money to defeat the Republican ticket to-morrow. Oak and Michigan Bar where he was en-This uncalled-for combination acts simply from the sentiment of unjustified fear that John Stevens, as Trustee, will not act one of whom it could be truthfully said fairly, truly, loyally for the best interests of the city of his home. That fear has been industriously cultivated, and it may be safely assumed, by a crowd of men who hope to share in the boodle.

What is there in the life of Mr. Stevens to justify such an argument or money raised to defeat him? How is money used in an election? Does any voter need to be told? The men who have raised this sack have taken up a weapon that will return, like a boomerang, to smite them. It is a more powerful argument in favor of th election of the Republican candidate than all the pledges he could utter between this and next New Year's Day.

The RECORD-UNION is for John Stevens because he is the Republican nominee, and because he is a man worthy of the nomination, representative of the party, true as steel to the city, perfectly trustworthy, able and every inch a man. We care nothing for pledges or non-pledges when such a one is put forward. It remains to be seen if the homes of the city will not resent this assault upon a good man by a saloon sack; it remains to be seen if Republicans will permit their chief candidate, against whom no man can utter a word of ill, to be downed by coin.

The infamy of the attempt is only paralleled by its openness. The corruption fund is raised without concealment; it is to be projected against the candidate of the party that has borne the brunt of the assault of rebellion and stood against the storms of disunion; it is not to be defeated by a combination without reason and that has resorted to a means that ought to be sufficient to give the Republican candidate such a sweeping victory that it will overwhelm with shame the men who adopt such vile

ENFORCE THE LAW.

The election to-morrow promises to be one of great interest. There will be crowds at the polls. Large sums of money are being raised by the saloon interest to defeat the Republican candidate for Trustee. Sacramento has often enough been disgraced by the polls being made riot and intimidation centers. The police and the aid they can call in, can, if so minded, enforce the hundred-foot law and prevent the game being carried out that has so often been resorted to here-that of blocking the way to the polls with "line-repeaters," so that the real voter cannot reach the ballot-

There must be no crowds about the ballot-windows to-morrow. Two or three determined officers firmly announcing their purpose, can easily keep the crowd back and let no one come within reach of the polls except those who walk there to vote, and a challenger or two recognized by the Boards of Election. Let the police do their duty, enroll posses, if need be, to aid them, and see to it that there is no more of this disgraceful crowding and jamming about the polling window; that no man opens a ballot within one hundred feet of the polls; that no voter is solicited within that limit. The city officials have ample power to insure us a peaceful and orderly election,

The British Consulate was burned, the American Consulate looted, and even the French assaulted. While the riots were confined to one of the most modern of Chinese cities, it is known that in the older ones there is a hostile feeling also to foreign residents. The coming to power of the young Emperor is not promise of better things, for he is under the control of a man who looks over his shoulder for his policy, who looks over his shoulder for his policy, and not into the progressive present and the possibilities of the future. His is a patriarchal sentiment in all things which patriarchal sentiment in all things which patriarchal sentiment in all things which innovation and favorable to exclusiveness and retrogression. Of course both the British and American Governments will make the Pekin Government smart for the outrages referred to; but punishment, we fear, will not prevent the occasional outbreak of the intolerant spirit.

AN UGLY DISCOVERY.

A Report That Should Be Read. "A recent analyzation in Philadelphia by a celebrated chemist of ten popular brands of sarsaparilla discloses the astonishing fact that these ten samples of blood purifiers (?) contained in the aggregate sixteen different minerals, eleven of which were active poisons. Iodide of potash was discovered in every sample, mercury was found in all but two, while one brand was the pure article." A reporter took the above clipping to E. W.

Joy, the manufacturer of Joy's Vegetable Sarsaparilla. Mr. Joy exhibited no surprise. He said druggists knew it. He said he long ago saw the crying need for a safe and absolutely pure vegetable preparation of Sarsaparilla, hence his was named Jov's vegetable sarsaparilla, because it contained nothing but pure syrup of sarsaparilla, combined with the pure juices of California's vegetable alteratives. Unlike potash sarsaparillas, it does not force impurities through the skin but stimulates the various secretive organs, thereby correcting functional derangements and eliminating all impurities through the natural channels.—

PLATFORM

American Party

THE AMERICAN PARTY OF THE CITY OF Secramento reaffirms the principles coun isted in the platform adopted by the American tate Convention, held in San Francisco July 1888. Concerning local issues, the American party concerning local issues, the American party ecclares as follows:

1. Unequivocally and emphatically we favor thigh license tax for the sale of intoxicating iquors in the city of Sacramento of at least \$500 per year, payable quarterly in advance, and we hereby pledge our candidate for Second Trustee, if elected, to use his best efforts and to vote for year and tax.

hereby pledge our candidate for second Trustee, if elected, to use his best efforts and to vote for such a license tax.

2. We believe in the enforcement of all laws enacted by the Legislature, and all ordinances ordained by municipal authorities. We denounce the present inefficient, dishonest and disreputable condition of the police force of the city of Sacramento. We arraign it to the people of this city as the most corrupt, ineffective and cowardly force possessed by any city in this State. We condemn its subserviency to one man, its connection with the gamolers, the thieves and the lowest elements of Sacramento. We declare it a disgrace to a law-abiding people, and an outrage to decency.

3. Dishonesty in politics is no more to be tolerated or encouraged than dishonesty in private transactions. We arraign the Republican party of this city for duplicity and cowardice. With discourtesy, its Convention has declared against high license, yet has nominated a man who, in private conversation, avers his allegiance to that principle, but who refuses publicly to declare his sentiments for the alleged reason that by doing so he would lose the votes of those opposed to high license.

4. Believing that with its growth and prosperity, the needs and requirements of Sacramento eity have increased, and recognizing that our Government is hampered and retarded by a charter intended only as a temporary expedient, we hereby sunounced ourselves in favor of a new charter for the city of Sacramento: but we desire the retention of the Funded Debt Commission.

5. We consider a crime against the elective franchis the greatest crime that can be committed in this country. With horror and dismay

5. We consider a crime against the elective franchise the greatest crime that can be committed in this country. With horror and dismay we behold the repeated assaults of the Republican party of Sacramento City upon the honesty and purity of the baliot. We declare that any party one-half of who-e members systematically engage in the intimidation of decent voters, the perversion of the will of the majority, and the stuffing of the ballot-boxes, is undeserving the confidence or the support of the people. The primaries of the Republican party in this city are characterized by viciousness, corruption and crime. To such an extent have the adherents of this party carried their corruption and dishonesty that even the honest voters of the party stand aghast. We declare that nothing can be hoped from a party that connives at and condones the outrages recently committed in the Republican primaries; and we call upon the respectable and honorable citizens in Sacramento to unite with us in our efforts to protect the ballot-box and our endeavors to purify elections.

The insignificance pusillanimity and pugrility.

elections.

The insignificance, pusillanimity and puerility of the Democratic party of this city place that party beneath our notice.

That was a good enough for the Republican ticket, headed by John zen, simply because you have led a blameargument years ago, but it doesn't go down with voters nowadays. No, sir; it won't do! True, I am a Re-

publican, and I admit that all the pledges asked of you by the party you manfully promised to stand by. But I am on deck myself, with my little ballot, and if you want it you've got to come out and declare yourself to me in advance. I mean business-I'm on the warpath, and I want a scalp. I have just as much right to demand of you categorical answers to my questions as has any other citizen, or an newspaper. Now I want to know:

First—If elected, do you propose to let your nose go unwiped in case you should have a cold? Second—What price do you intend to put on fruit-boxes the coming season (if elected Trus-

tee)?
Third—What position will you take on the Irish land question? In this connection I demand to know whether or not you are in favor of land monopoly. (This may be somewhat farfetched, but I demand to know your position

thereon.)

you regard it as immoral? (This is a burning issue.)

Fifth—If elected, will you vote (on any question) in the interest of this city, or are you in favor of turning it over to tramps and other lawless characters. (I'm afraid of you on this point, and a positive pledge is demanded.)

Sixth.—Do you believe the Parnell letters were genuine, or do you dare to say that Pigott, the perjurer, was an howest maa?

Seventh—Do you take your whisky straight, or do you pollute it with sugar and water?

Eighth—are you a Methodist, Baptist, Unitarian, Catholic, or Lutheran? Are you a Chinaman and a heathen?

Ninth—If elected, do you propose to become a hoodium, or remain—as you have been—an upright, honest and respected citizen?

Tenth—Is marriage a failure?

Eleventh—Are you a fraud?

These are but a few of the live issues in

These are but a few of the live issues in this campaign, but they are sufficient for a starter, and if you see fit to answer them I may give you a few more. You see, there are a great many weighty questions now burdening the minds of the public, and a man who wants to serve the people should know himself jast where he stands and be ready to pledge himself to every individual voter, in advance of his election, upon everything. As I said before, you can't expect people to trust you to do what you may think to be right and preser and to a vote of the people on those issues can't expect people to trust you to do what you may think to be right and proper, and I want to place you on record on every possible emergency that may come up—in case you should be elected.

In the leaste and the lew charter questions to a vote of the people on those issues alone. Neither question has any business in this election, and it is wrong to drag them in.

I demand a definite answer to each and every question herein put to you, and thereon depends my vote. It is barely possible that the other thousands of voters in this city have each important questions to submit to you, but that makes no differ ence to me-my vote counts as much as that of any other single citizen. Why They Are For Him-Pledged or Unpledged He is Warmly Indorsed.

The following expressions of representa ive citizens upon the candidacy of John Stevens were gathered in a very brief time late last evening by RECORD-UNION re-

We are going to elect John Stevens and the whole of the Republican ticket. This side show which has been sprung in the last few days should not be permitted to lose the Republican candidates a single vote. It seems to me that these issues which are now being pressed from certain quarters are entirely in the interest of the Democratic nominee and should be spurned by the Republicans of this city in their late Convention placed the nominees of the party on the party platform. That is our guide when we come to consider the C. H. HUBBARD.

Yes, I am a Democrat. I was Superin tendent of City Schools when John Stevens was a Director. I consider him thoroughly discreet man, and one of our essentially good citizens. I believe he would be a competent and efficient member, as well, of enforced by law for a considerable rate of license unless a vote of the people was first had, indorsing the ordinance. If this be that the constitution of the Board of Trustees, if chosen to that body. I believe, as a rule, where issues are made in a campaign candidates should express their views thereon; but if Mr. so it occurs to me that the question of high license or low license has nothing whatever to do with the city election to take place next Tuesday, inasmuch as two members of the new Board are already made, then I think he is right, for the reason that it is a serious question, even between lawyers, as to whether or not the nance to a public vote. I am glad to be able to vote for once for a candidate who, if he goes into the office of Second Trustee, goes in without having been compelled to pledge himself to vote for a long list of incompetent and corrupt petty officials. As to the city charter, I don't believe there are five men in the city who know whether a new charter would be the right thing or not.

S. B. Smith, late Public Administrator said: I am for Stevens. I can see no reason why a Republican should desert the ticket. I don't think that any one should bject to John Stevens because he will not give a decided opinion upon an untried question. He has the right to object to being pledged for or against what is not in the platform of his party. I know Stevens well. He can be trusted.

H. WEINSTOCK. I believe Mr. Stevens to be a representative and competent man for the position to which he is nominated. Therefore I have faith in his good sense, his sound judgment, to act for the best welfare of the community, and hence I am for him, trusting to his character for justice and his devotion to the best interests of his city.

H. WACHHORST. I have just returned from San Francisco and hence I am not very well posted as to the situation, but want to say that I am a Republican, and as such I want to see John Stevens elected. In response he said the Convention had been called for no political purpose, but simply as a matter of protection to their ousiness, their homes and their families. A few days ago another Convention was called in this city for the purpose of forcing upon this community high license. Afternoon Session

The Senate re-essembled at 1:30 o'clock, President pro tem, in the chair.

Wilson offered a resolution that the Senate adjourn at 2:30 m. until-Monday at 10 a m.

[Senator Jones in the chair.]

Heacock stated that the President profeer. had gone to his room sick, from overwork, and that several other Senators felt the need of some ayes to 6 noes.

On motion, S. B. 610, relating to the annual meeting of the trustees of corporations, was declared a case of urgency, read three times and

Senator Goncher rosetto a question of wrivilege and among other things said:

"Mr. President: I want to call the attention of this Senate to some matters which appeared in two of the San Francisco newspapers of to day, one in the Call and the other in the Examiner. That in the Examiner is found in the column headed "Cur Lively Legislators," and is as follows:

"The Democratic party was thrown down again to-night by Goucher, Meany, Roth and Mead. On motion of Senator Wilson, the senate had agreed to take up the Governor's appointments at 8 o'clock this evening, but when the time eame Wilson moved to postpone the matter until to-merrow. The four Democrats named stood in with Wilson and a combination was at once scented. The trade is represented to have been that the four were to confirm the Pilot Commissioners and the Fish Commissioners on a reconsideration, and in return for that were to get the Governor's signature to the Glenn county will. Senator Boggs and his friends saw the play, and learning that the trade was not completed and that delay was sought for the purpose of finishing negotiations, they went to Senator Murphy, and showed him how he was being thrown down on the Pilot Commission by the men with whom he had voted on the Glenn county bill. Murphy told them to go shead and block the game, and they proceeded to copper the plans of the four by voting the same way. This demoralized the combination, and seeing that he had votes enough, Wilson suddenly concluded to go en with the appointments. Then Yell took it into his head to find out what zind of a job was being put up on the Democratic party, and moved to postpone the whole matter until to-merrow. After a The Democratic party was thrown down

whole matter until to morrow. After a deal of slibustering the motion prevailed, business of the evening was demoralized, the Senate adjourned before midnight, lent White was disgusted and angry, and which was the way the trade way be made, the bemocrats will be sold out on the appointments and the Republicans will control the commissions. Democrats in the corridor were not believed in the selection of language, in which to ice in the selection of language in which to

low, Mr. President, this refers to matter Now, Mr. President, this refers to matters which were discussed last night, and which are well known to all the Senators. I will commence by answering the last part of it first, that "Democrats in the corridor were not choice in the selection of language in which to denounce the jobbing and trading on political questions." If that refers to the four Senators named, those gentlemen who were in the corridors were very careful not to say anything about it in the gentlemen who were in the corridors were very careful not to say anything about it in the presence of either of the four named. I admire their prudence in that act. The other part of the matter is simply false—that is, the statement that the Democratic party was thrown down by Goucher. Meany, Roth and Mead. Now the fact of the business is that the first Democratic name on the roll-call is that of Senator Boggs, who voted with the Republicans. It is very common on the foll-call is that of senator Boggs, who voted with the Republicans. It is very common in legislative bodies for members of the same party to vote the same way, or take the signal from the member of the party whose name stands at the head of the real-call. As soon as stands at the head of the roil-call. As soon as senator Boggs voted that way it would have been perfectly legitimate, under any circumstances, for us to have followed. When the gentleman voted we followed his lead, but instead of being pleased with the reinforcement which he received he seemed to be very much excited and disgusted. I did not know what that meant. I was surprised that the Senator did not rush over and clasp my hands in his warm grasp and thank me for coming to his support. Instead of that he took the opposite view. As to any combination that is untrue. There was no combination. The truth of the matter is this: I went to various members en the floor of the Senate yesterday, and told them that it was my desire to reach the general file third reading, and that unless the Senate would covelude to take up that file, I should fight off the consideration of every other matter by every known take up that file, I should fight off the consideration of every other matter by every known method in parliamentary lew, for the reasons that I stated last night on the floor of the Senate two or three times. The vote against the special order was simply in furtherance of that purpose. I endeavored to prevent other things being taken up during the day, but part of the time I was in the chair and could not do anything. I went to various Senators at the evending session—to Senator Britt, I think, and Senator Williams, I do not remember about Senator Murphy, and asked them to help ne fight against anything that stood in the way of taking up the third reading general file. I called the attention of Senator Williams to one bill on that file, of which he was the author. Last night I stated to the Senate what the object of these bills was, and that while it would not of these bills was, and that while it would not

of these bills was, and that while it would not make any difference about the confirmations, it would give these bills one day's advantage in the Ascembly if taken up then. That I stated over and over again. I went to Senators Mead, Roth and Meany, and told them this, too, and nobody can blame us fer it, because Senator Boggs, who stands at the head of the roll-call, will probably vote to defer them. The Examiner does not take him to task. Why? Senator Boggs was here. Mead-Probably they did not consider him a her-If the Examiner does not conside

Goucher—If the Examiner does not consider him a Democrat it is news to me. The other matter that I refer to is this. In the Ozil, on page 8, under the head of a "Sensation in Store," appears the following:
"Sensational developmen's may be expected to marrow, when Senator Murphy will in effect charge the four Democratic Senators, Goucher, Meany, Mead and Roth, with having traded their votes to configure the Governor's appoint ments-for Waterman's signature to their pet bills."

ments-for Waterman's signature to their pet bills."

I want to say this, that there is not a Democratic Senator on the floor that arould dare make the charge, because it is talse, and I have enough respect for severy Democratic Senator and every Republican Senator, too, to know—at least I have faith enough to believe that no one would willfully charge a talsehood on this floor, and that would be a falsehood. I do not know whether Senator Murphy made the charge on the authority of anybody or not, but I want to say that no Democratic Senator on this floor would dare to make the charge, for the reason I have stated and for other reasons which I do not propose to name. Left not believe that Senator Murphy believed anything of the kind, because I went over to his desk last evening when this was pending and told him the object was not to cantiem the appointments, but that the object was centirely different from that. I stated to him and to Senator Williams and others, while the controversy was pending, that the object was not was not good to those denators they at least did not indicate to me that they did not believe it. know whether Senator Murphy medic the charge on the authority of anybody or not, but I want to say that no Democratic Senator on this floor would dare to make the charge, for the reason I have stated and for other reasons which I do not propose to name. Ledo not believe that Senator Murphy believed anything of the kind, because I were over to his desk last evening when this was pending and told him the object was entirely different from that. I stated to him and to Senator Williams and others, while the controversy was pending that the object was not twant they seemed to think it was, and if my word was not good to those denators they at least did not and taked to the controversy was pending that they did not believe it.

Now I want to say further on this proposition that I have never gone to the Governor of this Regulations. Sik Culture, State Library, State Prison, Swamp and Overflowed Lands, Vini-

State and requested him to sign any bill, or made a proposition that I would vote to confirm anybody in consideration of his signature. The proposition was made to me yesterday in the lobby to do that thing, by somebody, or, rather, the suggestion was made. The suggestion was anybody in consideration of his signature. The proposition was made to me yesterday in the lobby to do that thing, by somebody, or, rather, the suggestion was made. The suggestion was made. The suggestion was made that I should go to the Governor and make this kind of a proposition—to enter this kind of negotiation—and I said that I would not go to the Governor of Califo nia and propose a trade of that kind; and I state new, that I hed then and have still too much respect for myself and too much respect for the Governor of this State to make the opening for a negotiation of that kind. Therefore, it is untrue in both journals. The accredited representative of the Examiner on this floor was not present when these things occurred last night. He based his report on information as he tells me, from certain sources which are near about at this time. The sources of the information did not tell the truth, and I don't care where the sources were. They did not know what they were talking about.

Now, I have one word specially about the

They did not know what they were talking about.

Now, I have one word specially about the Examiner. I have been the Examiner's friend for a long time—since my boyhood. I have indorsed its political views. I have taken a great deal of pleasure in reading its editorials upon political matters during campaigns I have bought extra copies for the purpose of sending into remote districts that I represent in order to assist the people of those localities in Democratic fasth and an Democratic arguments. All this I have done. Two years ago, when its owner was a candidate for the United States Senate, I stood by him in that fight. During my campaign it was openly announced that he was my choice for the United States Senate. When it came to a proposition that certain voters should stay out of the Democratic cancus in order to defeat him, Senator Meany and myself were the strongest advocates and most active supporters of holding the party together. It is known to every Senator on this floer that that paper has missed no opportunity during this session to throw mud and falsehood and lies upen us. My future course with reference to the San Francisco Exeminer shall be dependent upon the answer I get from Senater Hearst to-day.

Murphy—Mr. President: I rise to a question

lies upen us. My future course with reference to the San Francisco Examiner shall be elependent upon the answer I get from Senater Hearst today.

Murphy—Mr. President: I rise to a question of privilege. There is not a Senator upon this floor who is not aware that I have been very anxious for several weeks to block, as has been stated by the San Francisco Examiner, the confirmation of the names sent in by the Governor for Pilot Commissioners. Two years ago, at my solicitation, the Gevernor of this State appointed Martin Bulger and A. C. Frieze Prot Commissioners. I hack known them and I had known the Governor from boyheod. On the 4th day of Sebruary, 1887, the late Governor of this State sent these names into this Senate. Upon page 177 of the journal of the last session I find that Martin Bulger and A. C. Frieze were confirmed as Pilet Commissioners by a vote of twenty-nine to none, and they held the office until one week after the present Executive succeeded to the office which he now holds. Among those who veted for the confirmation of Captain Bulger and Captain Frieze are eleven Senators upon this floor. Their names are Dixon, Goucher, Hinshew, McDonald, Meany, McBitt. Murphy, Pinder, Roth, White and Yell. The senator from Celus was not here. If he had been he would have voted too for the confirmation of these appointments. In the exercise of what he considered to be his executive prerogative, the Governor of this State. for no other reason than that they were Democrats, and believing that he had the power to do so, arbitrarily removed them. Frieze and Eulger have been for forty years identified with the commerce of that port, men of character, standing and integrity; no chance for any charge in the world to be brought against them; no possibility to remove them upon any ground except the mere feet that they had been appointed by a Democratic Governor and been confirmation of these gentlemen were ready to indorse that action. They were compelled to appeal to the highest tribunal in this State to make their ti

this, that in my votes last night upon these matters I did not change front. Everyone knows that I didn't. I voted as I have been voting all the time, and as I think proper. As to Senator Goucher's change, if there was such a change, I do not complain of that. If he was waiting my lead I have only to say that the Democrats have not followed my lead. My name appears first on the list-but the Democrats did not follow my lead, though Senator Goucher did. I am not sensitive to newspaper attacks, not at all. I know that newspaper correspondents are liable to make little sensational attacks and reports. It makes their paper a little more sought after and more spicy. When they criticise me I do not fail out with them or complain of them. Any of them are at liberty to criticise me and my acts to the fullest extent. If I can't stand it I will change my course.

Mead—Mr. President: These newspapers seem to think they have the right to criticise men no matter what position they may hold. I think the privilege of the press is too great, when any paper, or any writer in any paper, has the audacity—I say it above board, because I care for no paper—a Chinamaa I will respect when he is right—the highest authority in the State or United States I respect no more. The paper that criticises me, or the man who gives the paper any information concerning me, I say is an infamous liar. No man on earth can say I ever went into any combination of any kind. I am a Demecrat at heart. I stick by my party when it is right, and when it is not right I do as I please. I do not care what any man says about me or publishes about me. I had last night two reasons for voting as I did. One was important to me, or important to a friend of mine who is a Democrat. The other was I thought for fun I would vote with the man who won't speak to me now—the honorable Senator Boggs. I thought for fun, because he led the Democratie hosts, and he voted with the Republicans, I would follow the lead of that great Democrat—which he states, not only in caucus, but e ttempts to implicate me, in any combination hat is not honest, he is a falsifier, no matter

who he may be.

Boggs—I can only say, as being a Democrat and voting with the Republicans, I believe that there was a Democratic caucus held a few days since. I believe that cancus did not adjourn very harmoniously, and it was considered that every man, when the question came up on these appointments, should vote as he pleased. I only exercised my rights as other Democrats did in that particular.

Sprague rose to a question of privilege, and set Richard Shute right in regard to the disturbance with the Sergeaut-at-Arms on Friday evening.

IT WAS A FAILURE. Sad Story of an Unfortunate Married Couple in Providence.

PROVIDENCE (R. I.), March 10th .- A lawyer's extraordinary forgetfulness is responsible for a painful climax in the household of Policeman James Field. Mr. and Mrs. Field quarreled some months ago, and the wife proceeded to get a divorce. She in-structed Edward Hazzard, one of the oldest members of the Bar, to make out the papers. It was done, and she swore to them.

The formal notice by advertisement was made, but the wife, unfortunately, did not see it. She became reconciled with her husband and there was no more talk of divorce. The affidavit of Mrs. Field got astray and passed from the lawyer's immediate recollection. Months later, and at a time when the Fields were never more happy in their affection for each other, the lawyer pulled the papers out of a pigeon-

happy in their affection for each other, the lawyer pulled the papers out of a pigeon-hole and had the divorce granted.

Friday night it was the anniversary of Field's birthday. A company of friends was at the house, when a letter from Lawyer Hazzard containing the divorce absolute arrived. Field had just kissed his wife in the presence of all her friends, and was made doubly happy by the presentation of a watch, chain and charm.

The beautiful picture was rudely shattered when Field read Hazzard's letter. Mrs. Field read Hazzard's letter. Mrs. Field, in speechless horror, fluag the letter from her and fainted away. It was picked up and read by the husband and guests. There was no mistaking its import—Mr. and Mrs. Field were no longer man and wife. Bellef that Murderer Tascott Has Beer Finally Located. CHICAGO, March 10th.—Increased interest again being taken in the Tascott case. It is claimed by the police authorities that there are some substantial facts in connecion with his whereabouts that may lead to his capture at any time. A former acquaintance of Tascott's called on Chief Hubbard about ten days ago and asked if the reward of \$50,000 still held good, and was informed that it did. Later in the day ne called again and submitted a package of letters, which upon inspection proved to be in the handwriting of Tascott. The subject of the letters had no connection with the famous tragedy and were not signed. The only hint that the writer was a fugitive from justice was a request in the first letter

Allcock's porous plasters give almost instantaneous relief and their strengthening power is remarkable. In cases of weak back put two plasters on the small of the back and in a short time you will be capable of quite severe exercise.
